

# 1003 Hans Pendant

<b>Design</b>	Hans-Agne Jakobsson
<b>Material</b>	Scots Pine, Copper
<b>Country of production</b>	Finland
<b>Environment</b>	Indoor use
<b>Preassembled</b>	Yes
<b>Weight</b>	2.9 lbs
<b>Certificate</b>	SGS Listed (UL 1598)
<b>Manufacturer</b>	Heinolan valmistamo – Nastola, Finland
<b>Origin of Pine</b>	EU

# 1003 Hans Pendant

## Dimensions

## Packaging

L: 27.6 in, W: 27.6 in, H: 19.7 in

## Finish

Hans pendants are made from a combination of solid pine wood and pine veneer, and finished with a stain-resistant, water-repellent, matte wood oil (we use Osmo Color hardwax-oil 3062 matt).

## Shade holder material

Copper

## Dimmable function

No, but can be fitted with an aligned dimmer

## Bulb base

E26

## Light source

Not included

## Colour temperature

3000 K

## Cable

Length	98.4 in
Material	PVC coated Copper wire
Colour	Black

## Ceiling rose

Material	Steel
Colour	Black

# 1003 Hans Pendant

## Lamp rating

Voltage	120 V
Frequency	60 Hz
IP Rating	20
Energy label	N/A
Socket	N/A
Protection class	IP 20

## Bulb replacement

Use an E26 max 60W bulb. We recommend using a LED bulb with 3000k color temperature, as it works beautifully with pine veneer and lasts for many years. On top of this, LED bulbs consume a lot less energy than traditional halogen or incandescent light sources.

## General cleaning

Pine veneer is a very delicate material. Carefully wipe the dust off the veneer with a feather duster.

## Aging

Pine will naturally change colour as it ages. Your pale piece of lighting will gradually mature to a beautiful honey colour over the course of several years.

## Sustainability

All Vaarnii products are locally made by a small number of expert Finnish makers. All pine wood is harvested from sustainably managed Finnish forests.

## Material

We have chosen to focus on a single material that is locally abundant. Our range is made entirely from Scots Pine, which is the most populous tree in Finland, making up approximately 44% of all forests. We have chosen the material based on opportunity and locality, not fashion.

## Treatments

Our surface treatment materials: Osmo Color hardwax-oil 3062 matt and the adhesive Kiilto Pro B3, which is M1 certified, meaning they have very low emissions of volatile organic compounds (VOC's).

The logo for Vaarnii, featuring the brand name in a bold, lowercase, sans-serif font. The letters 'a' and 'i' are stylized with circular accents above them.

## Packaging

We use recyclable cardboard and honeycomb to protect the products, keeping plastic use to an absolute minimum. All the packaging for our indoor furniture is made partly from recycled cardboard. Whenever possible, we reuse our packaging.

## Production

All our suppliers comply with our Supplier Code of Conduct, which requires that the supplier has either an environmental management system certification, for example ISO 14001 certification, or reports on their environmental management in production to Vaarnii annually.
